All members have to be connected in some way with orienteering, should work as Technical Advisors and be able to promote orienteering.

No comments.

6 INFORMATION FROM THE GENERAL ASSEMBLY IN CYPRUS

President mentioned that the GA was organized on high level. He concluded, once again, that is of great importance for the TC president to be present at GA. Orienteering in the CISM sport family has no problem at all.

President is very satisfied with the situation. We have organizers till 2008. Most of the nations come to ask to organize, and we have some nations who are "queuing" to host the WMOC.
